1 Introduction

EasyStoreMaker Pro 4 is an online ecommerce tool that allows users to create a dynamic storefront. With EasyStoreMaker Pro, users can easily incorporate various payment options, product catalogues, international currencies, local tax calculations, shipping/ handling calculations, language conversions, and auto messaging.

TO LAUNCH EASYSTOREMAKER PRO:

- Click on the **EasyStoreMaker Pro icon**.

The application opens in a new window:

1.1 Navigation

The main menu is located on the top-right corner of EasyStoreMaker Pro.

- **Main Menu:** links you to the main page within EasyStoreMaker Pro
- **Configuration Wizard:** will take you through the 10 mandatory steps in order to setup an online store
- **Store Configuration:** allows you to view and change all store settings
- **Add Product Wizard:** assists in adding products to your online store.
- **Order Management:** allows you to view, process and reconcile your store orders
- **View Store:** allows you to view live store
- **Order Management:** allows you to view, process and reconcile your store orders
- **View Store:** allows you to view live store

- **Support:** opens online help files for EasyStoreMaker Pro in a new window
- **Feedback:** allows you to send feedback concerning EasyStoreMaker Pro
- **Tutorial:** will take you to the screen that contains tips concerning the usage of the EasyStoreMaker Pro

2 EasyStoreMaker Pro

2.1 Configuration Wizard

The Configuration Wizard is a 10 step guide through the store setup. The Configuration Wizard includes an option for U.S. customers to setup a First Data merchant account and payment gateway. Only United States residents have the option to setup a First Data merchant account, residents outside of the U.S. are not able to see this step in the Configuration Wizard.

TO LAUNCH CONFIGURATION WIZARD:

1. Click **Configuration Wizard**.
2. Complete the following:

16. Set up shipping method(s) for you store.

Note: To create a shipping method under a specific shipping category, click the **+** symbol beside the applicable category, fill in all applicable information and click **Apply**.

17. Click **Next**.

The screenshot shows the 'EasyStoreMaker PRO' Configuration Wizard. At the top, there are navigation links: 'Order Management', 'View Store', 'Support', 'Feedback', and 'Tutorial'. Below these are buttons for 'Main Menu', 'Configuration Wizard' (highlighted), 'Store Configuration', 'Add Product Wizard', and 'Uninstall'. A progress bar shows steps 1 through 10, with step 10 'Configuration Wizard' selected. A '< Go Back' button is on the left, and a 'Next >' button is on the right.

The main content area is titled 'Templates' with the instruction 'Select a style for your store.' It is divided into two sections:

- Template List:** A grid of six template thumbnails. A 'Category: General' dropdown is at the top left.
- Template Details:** A form for configuring the selected template. It includes:
 - Template ID: default
 - Products per page:
 - Product Showcase: No
 - Random Products: 0
 - Supported Languages: English, Français, Español, Español (México), Italiano, Português, Deutsch
 - Image Sizes:** A section with the instruction 'Select the size of the product images on your store. All image dimensions are measured in pixels.' It contains:
 - Main Image: Width: px, Height: px
 - Thumbnail Image: Width: px, Height: px
 - A 'Restore Defaults' link.
 - Template Colors:** A section with the instruction 'Customize the look of your store with the following template colors. (use HTML color codes, ex: #ffffff)'. It contains:
 - Table Border: and a color swatch.
 - Table Shading: and a color swatch.

18. Select the template and set up its layout.

19. Click **Next**

- **Receive a Discount of** – select discount type.
- **Discount Message** – allows you to enter discount message.

8. Complete product stock level:

Product Stock Level

Keep track of your products through running totals of current stock levels. When a stock reaches the given warning level, an email notification will be sent to your store email address. If Stock Check is enabled, the product will be marked as "Sold Out" when the stock reaches zero.

Apply Stock Counter: Enable Disable

Current Stock Level:

Stock Warning Level:

Apply Stock Check: Enable Disable

Note: Keep track of your products through running totals of current stock levels. When a stock reaches the given warning level, an email notification will be sent to your store email address. If Stock Check is enabled, the product will be marked as "Sold Out" when the stock reaches zero.

- **Apply Stock Counter** – allows you to enable/disable stock counter.
- **Current Stock Level** – enter product's current stock quantity.
- **Stock Warning Level** – enter product's stock warning quantity.
- **Apply Stock Check** – allows you to enable/disable stock check.

9. Assign to catalog.

Assign To Catalogs

The dialog box titled "Assign To Catalogs" features a header bar with the word "Catalogs". Below the header is a list box containing a single item labeled "test". The list box has a scrollbar on the right side.

10. Click **Apply**.

TO DELETE PRODUCT:

1. Click **Mark for deletion**.

Product List

The "Product List" interface includes a header with two dropdown menus: "Display Products in Catalog:" set to "All" and "Order By:" set to "Product Name". A "Display" button is located to the right of these menus. Below the header is a blue "+ Add Product" link. The main area contains a table with the following data:

Products	SKU Number	
product name	1337010080	⊖
nombre del producto	1337010938	⊖
test	1354539023	⊖

At the bottom left, it says "Product Count: 3". At the bottom right, there are "Cancel" and "Apply" buttons. A red circle highlights the delete icon (⊖) for the "test" product row.

2. Click **Apply**.

TO IMPORT PRODUCT:

1. Click **Product Import**.
2. Complete the following:

- **Do you want to replace all products in your store?** – allows you to replace or not to replace all products in your store.
 - **Choose file** – select CSV or MS Excel file on your PC.
3. Click **Upload**.

Note: There are two types of imports: The first type is to append (add) products to your store. The second is to replace all products in your store. If you select "yes" to replacing all products in your store, all current store products will be erased and replaced by the imported data.

TO EXPORT PRODUCT:

1. Click **Product Export**.

2. Select export format.
3. Click **Export**.

Note: The Export feature collects all products that currently exist in your store and places them into a CSV (comma separated values) file or MS Excel format. Exporting products allows users advance product management via spreadsheet. A link to the exported file will be provided once the export is complete.

2.2.7 Payments

Allows you to manage payment types, currencies, payment gateways and set store discount.

TO MANAGE PAYMENT TYPES:

1. Click **Payment Types**.
2. Select payment types.

Payment Types

Please choose the payment types that your store will accept. You must select at least one payment type.

Payment Type Details

Credit Card

VISA Visa MasterCard MasterCard American Express American Express DISCOVER Discover Discover

Other

Include Credit Card Verification Number

Check / Cheque

Personal Certified / Money Order

Instructions:

C.O.D.

Instructions:

- **Credit Card** - select the checkbox for each payment method that your store accepts. **Note:** For credit card payments, select the checkbox for all accepted cards. If the card is not displayed, select Other and add the credit card type
- **Check/Cheque and C.O.D.** – for money orders and COD (Cash on Delivery), you may wish to fill out the applicable Instructions section. This will provide details to your customers on Check/Cheque payee specifications and other notable details for payment.

3. Click **Apply**.

TO MANAGE CURRENCIES:

1. Click **Currency**.

Currency

Set the currency to use for your store.

Currency Details

Include the currency symbol on all store pages.

Code	Symbol	Currency Name
USD	\$	
MXN	\$	
CAD	\$	
EUR	€	
GBP	£	
AUD	\$	
ZAR	R	
RON	€	

2. Select required currencies.
3. Click **Apply**.

TO MANAGE PAYMENT GATEWAYS:

1. Click **Payment Gateways**.

The screenshot shows the 'Payment Gateways' configuration page in EasyStoreMaker Pro. On the left is a navigation menu with options like 'Store Status', 'Company', 'Templates', 'Preferences', 'Catalogs', 'Products', 'Payments', 'Shipping Methods', 'Retail Settings', and 'Customers'. The 'Payments' section is expanded. The main content area has a title 'Payment Gateways' and a sub-header 'Payment Gateway List'. Below this is a table of payment gateway providers, each with a radio button to select it. The providers listed are: Authorize.net, CardService - LinkPoint, Cybersource, ECHO, eSelectplus, E-xact, Secure E-commerce Transactions, GoMerchant, Intellipay, MerchantPartners, PayFlowPro, Paymentech, PayPal, Plug'n Pay, PsiGate, QuickCommerce, and SkioJack. Below the table are 'Cancel' and 'Apply' buttons. To the right of the list is a 'Payment Gateway Details' form with fields for 'Gateway Name', 'Currency*', and 'Status' (with radio buttons for 'Enable' and 'Disable'). A '*Mandatory' note is next to the currency field. 'Cancel' and 'Apply' buttons are at the bottom of the form.

2. Select the gateway you would like to use.
3. Fill in your merchant account information
4. Set the gateway's status.
5. Click **Apply**.

TO SET STORE DISCOUNT:

1. Click **Store Discount**.
2. Complete the following:

- Store Status
- Company <
- Templates
- Preferences <
- Catalogs
- Products <
- Payments >
 - Payment Types
 - Currency
 - Payment Gateways
 - Store Discount
- Shipping Methods
- Retail Settings <
- Customers

Store Discount

Provide a global discount for all orders placed on your store that exceed your selected threshold.

Store Discount Details

Apply Discount: Enable Disable

Orders Exceeding: Funds Quantity

Receive a Discount of: Funds Percent Free Shipping

Discount Message: Apply Message
